

MEDICI

**THE CLINICAL CODING DECISION
PLATFORM**

MEDICI: PIONEERING HOSPITAL REVENUE MANAGEMENT

Medici transforms the coding and reimbursement process - making it effective, secure and easily auditable enabling you to succeed in an era of change.

CORE FEATURES

Improved productivity and revenue with self-learning NLP engine

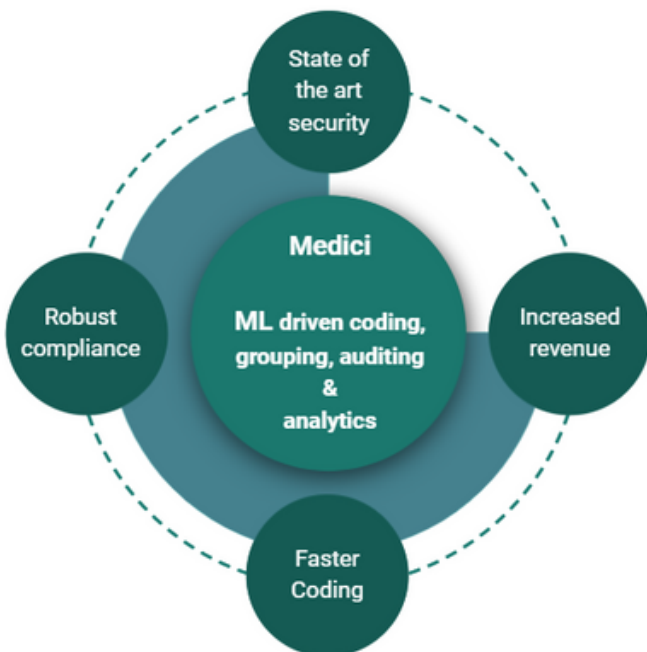

- Single platform for coding & grouping, auditing and Business Intelligence
- Automatic highlighted text and ICD 10-AM/ACHI suggestions.
- Clear audit trails for codes used.
- Rapid processing & fewer missed codes.
- A system that grows and evolves with your coders.

Usability

- Web native interface. Works on all popular browsers and operating systems.
- No system downtime even for system updates and new AI upgrades.
- Integrates easily with all major EMR vendors.

Security & Regulatory Compliance

- Extremely high bar on security to processes sensitive health data.
- 2-FA access control and access logs.
- End to end data encryption, TLS 1.2, 256 bit AES, frequent security scans.

MEDICAL CODING & BILLING IS EVOLVING

Clinical records coding and grouping today is a multi-step complex process

- Increased time and human resource constraints.
- Coders with differing skill levels.
- Strict privacy and regulatory mandates.
- Increased security threats.

Organisations need systems that are built for this reality

BENEFITS AT A GLANCE

MANAGERS

Managers benefit from a platform optimised for revenue generation, clear auditable coding, best in class data security compliance & access management.

-
- 2x faster coding optimised to capture casemix revenue accurately
 - 10% improvement in Net operating result.
 - Measurable ROI in 4-8 weeks.
 - Meets and exceeds the requirements of AU & NZ privacy acts.
 - Advanced BI for rapid insights.
-

CODERS

Medical coders can focus their time on leveraging their unique skills and expertise in making high value decisions to capture a larger number relevant codes accurately and rapidly.

- Automated pre-identification of codes.
 - Coder training & skill acceleration features.
 - Tree & semantic search interface for codes.
 - Easy to use. No installations or updates required on coder's computers.
 - Coding, grouping & auditing functionality.
-

IT ADMINS

IT staff benefit from easy setup and deployment in the cloud or on-site. Modern, robust and secure containerization, auditing and encryption ensure that IT staff can expect a minimum fuss deployment and scale up process.

- Best in class security embedded at the core. Clear audit trails.
 - No downtime for upgrades/ updates
 - Compatible with Amazon (AWS), Azure and Google Cloud.
 - Also supports deployment entirely within on-premises IT infrastructure.
 - Supports interfacing with your PAS/EHR via open standards.
 - Protection from OWASP Top-10 threats
-

GET STARTED
